Dear Ms. Arquette,

Trillium Power Wind Corporation is pleased to provide this letter in support of XAG Energy's assessment and training initiatives as well as its supply-chain network creation and co-ordination activities. We believe that XAG Energy has an interesting supplier network concept that has the potential to assist the development of renewable energy supply chains in an efficient manner.

Trillium Power remains resolute in its commitment to the success of the Province of Ontario, and The Great Lakes region, in developing cutting-edge advanced manufacturing and service industries for various types of renewable energy.

Trillium Power strongly believes that an integrated approach is required for all stakeholders in The Great Lakes region to become successful. Long-term, sustainable 'Green Collar Jobs' should not be a fiction for tomorrow but here today. Ontario's Green Energy Act needs and deserves this type of support from 'Main Street' organizations.

Trillium Power encourages other renewable energy developers to support and advise XAG Energy on their supply-chain development activities so that best practice activities are maintained and the most efficient innovation chain possible in The Great Lakes is developed.

Please feel free to contact me should you require any further information.

Sincerely,

A handwritten signature in blue ink, appearing to read 'John Kourtoff', is written over a light blue rectangular background. The signature is stylized and includes a long horizontal stroke extending to the right.

John Kourtoff
CEO
Trillium Power Wind Corporation
